

Hand applied Ekovilla Puru

Ekovilla Puru is loose fiber insulation made of recycled newspaper. Puru is suitable for small insulation needs such as additional insulating and renovation.

Ekovilla Puru can be applied by hand directly from the bag to the object to be insulated and no blowing machine is needed.

Product information

Puru is made from recycled newspaper. The insulation is loosely packed in 10 kg carton bags. If necessary, you can fluff it up or press it more densely according to the purpose of use.

Carton package, 10 kg/bag,
Wooden pallet 36 bags/pallet*

*Dimensions 110x170x210cm

Area of use

Puru is suitable for small insulation needs, such as additional insulation or insulation repairs.

Ekovilla Puru can be used as additional insulation together with all insulation materials.

Important notes!

- Store in a dry place
- Keep protected from the rain
- Use a P2 respirator mask
- Keep away from hot chimneys

Technical properties

Thermal conductivity

0,038 W/mK

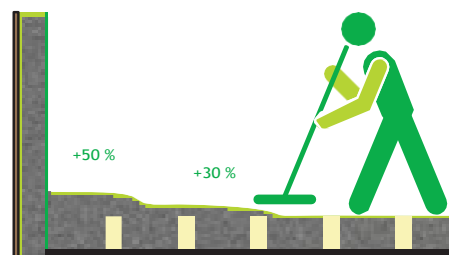

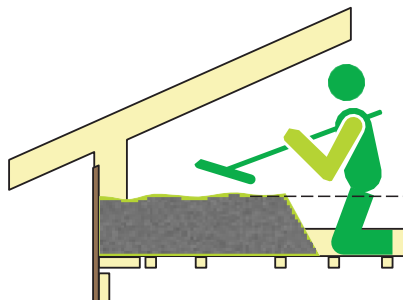

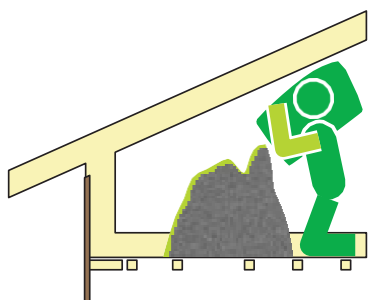

Reaction to fire

B-s2, d0 (>100 mm), E (<100 mm)

Usage in different applications:

- | | |
|----------|-----------------------------|
| • Attics | ca. 4 bags / m ³ |
| • Floors | ca. 5 bags / m ³ |
| • Walls | ca. 6 bags / m ³ |
